

BSA Pack 160 Motor Vehicle Registration

Volunteer drivers are essential for supporting camping trips, hikes and other activities. BSA policy requires that the Pack file tour permit requests in advance of most activities. The tour permit application includes a list of leaders, drivers, vehicles and other pertinent information. We hope we can count on your support. To facilitate planning, ask you to complete the following information so we can maintain a current file on the vehicle that you are likely to use for transporting scouts.

Insurance – All vehicles MUST be covered by a Bodily Injury to Others and Property Damage liability insurance policy equal to or greater than the compulsory insurance requirement of the state in which the vehicle is licensed.
